statement

An analytically minded developer with creative and logical problem-solving skills. My passion and excitement for web development stems from a life-long love for technology and the benefits it brings us. I am always seeking opportunities to grow my skills as a developer.

experience

May - 2017   **Houston Hackathon v5 Winner**   Houston, Texas

Created Adopt-A-Stormdrain mapping application which enables civic engagement.

- Coordinated with Chief Resilience Officer of Houston and Esri to source stormdrain data.
